Participant

Update: Adding link to final rule below. Please see comment responses that contain "0.153" lb/MMBtu.

<https://www.regulations.gov/document?D=EPA-R08-OAR-2010-0406-0323>

Update: Attaching relevant email thread with Matt Marks (and others) dating back to 2013.

.....
See email thread below. Both OGC and OAQPS have requested a call to discuss.

In preparation for the call, please review the attached emissions spreadsheet and think about what time period should be used for the BART analysis baseline for each unit.

Monica and Scott- I've invited you as optional attendees because I see that you will be at the APM meeting.

Subject: Consideration of Any Existing Controls Coal Creek Station

Hi Phil and Nora-

I am writing to get your input on the issue of any existing controls for Coal Creek Station (CCS) in North Dakota. CCS is

Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

I realize this is a convoluted issue, so please call me if you have questions. I'm also happy to set up a conference call if needed.

Thanks in advance and Happy Thanksgiving!
